PROTEGOL® Coating Systems

We Protect Assets

NEW CONSTRUCTION

More than 100.000 field joints at TANAP and TAP Projects have been coated with PROTEGOL® UR Coatings employing either automatic spray ring or cartridge discharger.

REHABILITATION

Many pipelines have reached their operational life time requiring refurbishment. PROTEGOL® polyurethane coatings for application in the field, whether the pipeline is in or out of the trench, whether the pipeline is in or out of service.

Have you ever thought about the good way of rehabilitating your pipeline with our PROTEGOL® coating systems?

We will be happy to advise you!
